Your opponents are robots playing a default system at the same level and there are ten boards to play. You can play the boards whenever you wish from Thursday to Thursday at 7.15pm. There will be new boards each week and you can compare your results and ranking with those of all our members who have played them. You play each board and all players play the same boards in each tournament for a fair comparison. Your "Free registration" credits you with ten boards plus bonus boards. You will receive another ten boards each week, sufficient for our tournament, and you can purchase extra boards or register as a premium member should you wish to extend your use of the Funbridge website.
